I'm way late with this follow-up email after our meeting in December, but better late than never! Also, I think the subject of street furniture, on at least a "trial test basis" will come up at the BID Annual Meeting that the Councilman will be attending on Thursday. A couple of the property / business owners (Brooklyn Bagel, Yogurt Land, and, maybe Drollinger Properties) want to install some sidewalk tables, chairs, and umbrellas that don't impede pedestrian passage. Yesterday one of them told me he wants to raise the question at that meeting.

After we met Tricia was going to follow up with the CD 14 Planning Director (Tainer Blackman) to see how they arranged for a "trial test" permit.

Is there anything we can say on Thursday?

(We also talked about CDO revision that needs to be resurrected from the City Attorney's Office (several years now) and solving our van parking abuse. I'll send separate emails on those subjects as well.)

Thanks guys.
